

COLLABORATIVE

SUSTAINABLE

CUTTING-EDGE

REVIT(R) DESIGNER / ENGINEER

Established in 1990, Peter Basso Associates is a 100% employee-owned, licensed professional engineering-only corporation. We provide mechanical and electrical engineering, energy management, communication technologies design, building commissioning, architectural lighting design services, and LEED® services, primarily for Education, Healthcare, and Corporate/Governmental facilities.

Many of our team members are seasoned veterans, equipped with the technical abilities, interpersonal skills and work history to create a truly dynamic corporation. Our reputation for quality work and personal attention, has been a cornerstone of the firm since its inception.

If you have experience working on a BIM team using the Revit platform, and especially if you have used Revit MEP, PBA would be interested in discussing an employment opportunity with you.
