Wang Becomes LEED Accredited Professional

Troy, Michigan, February 19, 2009 – Peter Basso Associates (PBA) is pleased to announce that Jason Wang, PE, President, has passed the U.S. Green Building Council's examination and is now a LEED Accredited Professional (LEED AP). The LEED AP credential represents the individual's knowledge of the LEED Rating System and its application in practice. LEED APs facilitate the integrated design process and streamline LEED certification. PBA currently has 16 projects in various stages of design or construction expected to be LEED certified.

With over 30 years' experience in the industry, Wang plays a key role in both the administrative direction of the firm and the management of many of the individual projects undertaken by the company. Wang is particularly well-versed in the design, development and implementation of complex energy management and conservation projects. Such projects include feasibility studies and implementation of central chilled water systems; thermal storage systems; cogeneration and heat recovery systems; direct digital controls and HVAC system optimization.

Wang has a masters of Mechanical Engineering from the University of Detroit and is a member of the American Society of Heating, Refrigerating and Air Conditioning Engineers, Engineering Society of Detroit, and Association of Energy Engineers. Notable projects on which Wang has been involved include Northern Michigan University New Science Center, Rochester Schools new Stoney Creek High School, Tech Town Tech One Renovation, and Saginaw Valley State University Pioneer Hall Expansion.

Peter Basso Associates is a consulting engineering firm specializing in the design of technically challenging, sustainable and high performance mechanical/electrical systems primarily to the Education, healthcare/Laboratory, and Corporate/Governmental markets. Headquartered in Troy, Michigan, the firm also has offices in Ann Arbor, Michigan; Las Vegas, Nevada; and Phoenix, Arizona.
